

## EMPOWERING JOURNEYS BEGIN AT CAA: FROM LITERACY TO CYBER WELLNESS

- ZACHARIAH PETERS

January 16-18, 2024, heralded the launch of the Literacy Block at our renowned institution, a thoughtfully crafted program aimed at mitigating learning gaps and arming our students with crucial 21st century skills. This initiative is not merely an academic exercise but a transformative experience, dovetailing with our theme, "How To Be Self-Directed." The modern era demands proficiency in self-guided learning and mental health resilience, and our curriculum is tailored to meet these needs, fostering well-rounded individuals ready to excel in a globally connected world. Our commitment to student well-being and holistic development shone brightly during the Mental Health Workshop on January 17, 2024. Esteemed expert Ms Anu Rajgarhia guided our students through the intricacies of mental health, offering practical advice for managing their mental well-being. The Workshop underscored the notion that self-direction extends beyond academics to include managing one's mental health positively. Both the Literacy Block and the Mental Health Workshop represent the intertwined strands of our comprehensive educational approach. By merging academic rigour with an awareness of mental health, we lay a solid foundation for our students to steer their educational journey and personal growth. As we continue on this path, we are constantly reminded of the immense potential of each student. The Literacy Block is merely the first step toward cultivating a generation of self-reliant learners, poised to face future

challenges with assurance and empathy.

Flash forward to January 25, 2024, and CAA's commitment to nurturing a secure digital ecosystem came to the forefront with the Cyber Wellness Workshop. This gathering was more than an event; it was a decisive move toward cultivating a safe digital space for our students, perfectly complementing the Literacy Block's theme. Engaging sessions with Mr Unmesh Joshi for grades 6-9 and Ms Sonali Patankar for grades 10-12 offered a deep dive into the complexities of cyberbullying, its impacts, and the importance of being digitally responsible citizens. This Workshop was not a standalone event but a part of our broader endeavour to blend technological proficiency with personal safety and digital citizenship. As CAA continues to evolve with the digital age, initiatives like the Cyber Wellness Workshop are crucial in fostering meaningful conversations, learning, and growth. Our dedication to this cause ensures that technology enriches our students' educational journeys without compromising their safety or well-being. CAA stands at the vanguard, continually nurturing its students with wisdom, care, and a commitment

to holistic development. Join us as we forge ahead, shaping a future bright with promise and filled with the potential inherent in every student.

## GIRLS DORMS CHECK IN

-REKHA JAYKAR

At the lively Lohri celebration near the girl's dorm, the air was filled with joy and warmth as children gathered around a vibrant bonfire, symbolizing the essence of the festival. The student eagerly participated in the festivities. Sweets and popcorn were shared among the young revelers, adding sweetness to the atmosphere. The environment echoed with laughter as the children engaged in traditional games, embracing the cultural spirit of Lohri.

As the evening progressed, the school transformed into a stage for a musical extravaganza where students and few staff showcased their diverse talents, singing an array of songs. The melodious tunes resonated through the air, creating a delightful ambiance. To add a touch of homely comfort, the celebration included the sizzling sounds of Maggi being cooked on chulha, making the festivities not only culturally rich but also a deliciously memorable experience for all.
