**Dear Corvuss American Academy Community,**

As we navigate through the final term and the implementation of a new literacy block into our daily school schedule which provides ample study time to ensure academic success. I want to remind everyone to fully maximize this opportunity.

This literacy block serves as dedicated time for you to delve into your studies, strengthen your reading and comprehension skills, and explore the world of literature. It's an invaluable opportunity to deepen your understanding of various subjects and expand your knowledge beyond the classroom.

Use this time wisely to engage with your coursework, dive into new books, and seek assistance from teachers or peers if needed. Remember, the more you invest in your education, the greater the rewards will be.

In addition to the new literacy block, I encourage you to take advantage of the plethora of resources available at our school. Whether it's academic support services, extracurricular activities, or counseling resources, we are here to support you every step of the way.

Your success is our top priority, and we believe that by utilizing these resources effectively, you'll not only excel academically but also grow personally and professionally.
