OUR FOCUS AREAS

ACADEMIC RIGOR AND PERSONALIZATION

We strengthen our individualized learning pathways with greater emphasis on data-driven instruction, targeted interventions, and global curriculum enhancements—including continued integration of Advanced Placement (AP) courses and college preparatory programming.

In partnership with Holston Academy, our students gain access to international credit programs and a broad spectrum of elective courses aligned with the American education standards. That enriches academic portfolios and ensures seamless readiness for colleges and global competition.

ATHLETIC EXCELLENCE WITH LONG-TERM DEVELOPMENT VIA OUR ONSITE SPORTS SCIENCE CENTRE

Our intentional, deeper integration between athletic coaching and academic scheduling ensures student-athletes can thrive in both domains. Our focus remains on sport-specific development, injury prevention, and exposure through national and international tournaments.

BuildUp Internships is a global platform designed to bridge the gap between education and the real world. With group-based + personalised projects, our student-athletes will collaborate with international companies and receive structured guidance from experts nurtured at Harvard, Cambridge, UC Berkeley, and Oxford.

CORVUSS IS WHERE STUDENTS FIND PATHWAYS TO SUCCESSFULLY ENTER TOP GLOBAL UNIVERSITIES

MAKING OF A GLOBAL CITIZEN - WHAT PARENTS SAY

“

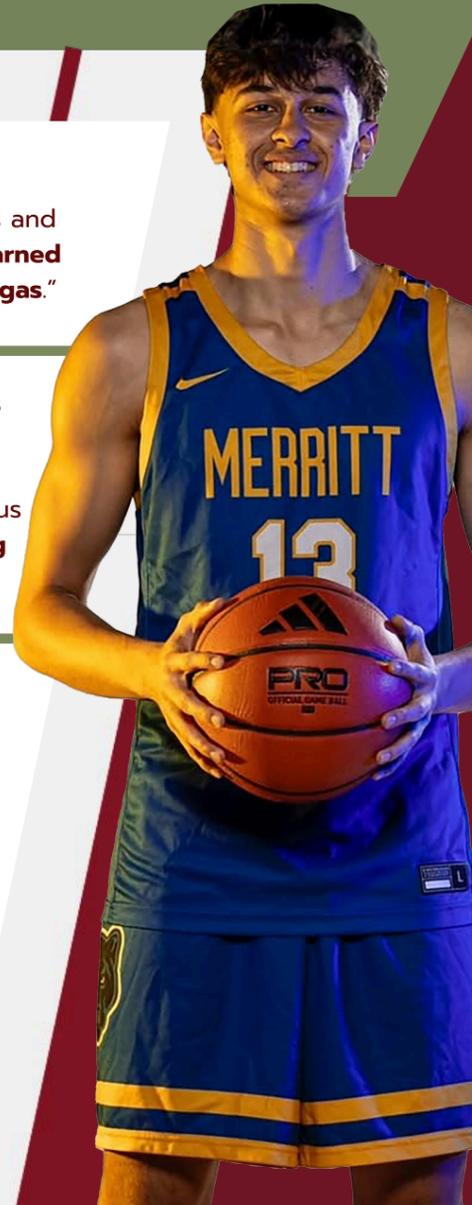

“From not knowing Basketball at all, post two knee surgeries and many ups and downs, **my son Zephan Scott, with his coaches and mentors at Corvuss, earned himself a partial scholarship to a Gap year academy at Impact Ball, Las Vegas.**”

Corvuss is probably the only school in India that understands and supports budding athletes- enabling them to learn at their own pace while staying within the contours of the academic structure. The coach focuses on developing each individual and also accompanies the school team to various tournaments across age groups. **It is not surprising to see Corvuss winning almost all tournaments it participates in.**”

“**The exposure my daughter Kajal has received- both in terms of fitness and discipline- has played a huge role in shaping her overall personality.** The balance between academics and sports was managed wonderfully- and I’ve seen her grow into a confident, focused young individual. We are truly grateful to Corvuss for helping her reach this stage.”

“The sports and exposure to fitness that my son Aaron got at Corvuss are not available in other schools. The boarding experience equipped him with many life skills. **It was one of the best decisions to enroll Aaron at Corvuss.**”
